

Summer Internship Shanghai

Job description

As an intern, we promise you won't be stuck fetching coffee — unless it is for yourself! You will be given projects and responsibilities from the start, proactively support our department in delivering services to our clients and have the opportunity to make new connections and friends from around the world. During the internship we arrange a number of social activities such as team dinners and company wide sports competitions to help you get to know us better.

Your Tasks

Our internship program is open for students who have an interest in market and company research. They will join our International Department at the headquarters in the Shanghai Tower. They would be expected to cover all the global operations of the Wicrecend group, which often includes writing daily newsletters, creating industry reports and researching markets for the company's global demand.

Requirements

Competent working level of English
Keen interest in the global economy
In-depth knowledge of the global marketplace and international business culture

Benefits

The company will cover the cost of round-trip flight tickets, visa fees and housing.

Company profile

Wicrecend Shanghai consists of two companies — Gaotime and Wicresoft.

Gaotime Information was founded in 1994 and, with more than 500 employees, is one of China's leading financial data and information providers. The financial insights we provide are based on our comprehensive markets database, along with historical data and forecasts from both Chinese and international markets.

Wicresoft was founded in 2002 and over the years has provided information technology services to leading organizations in a variety of industry sectors. Wicresoft sub-company Wicrenet promotes our "WISE" strategy, which is fully customizable CRM platform and is geared to help more traditional industries move into the Internet+ era.
